Faculty Initiatives on Teaching and Learning

Faculty initiatives in teaching and learning encompass a range of efforts initiated by individual faculty members with an objective to elevate the standard of education and enhance the outcomes of student learning. These initiatives manifest in diverse formssuch as use of ICT, instructional methods, assessments, evaluation and inclusive class rooms that lead to effective, efficient, and engaging instructions.

In this regard, all faculty members are required to mention the **INNOVATIVE TEACHING LEARNING initiatives taken in past/ in practice at present** to enhance the quality of teaching-learning process:

Faculty Name: Pooja Goyal **Employee ID:E14103**

S.No.	Pedagogical Tools	If Used (Please Tick)
1	Technology driven Pedagogical Initiatives	
2	Group Discussions	
3	Management Games	
4	Case Study	**Yes**
5	Field Projects	
6	Simulation	
7	Role Plays	
8	Flipped Classrooms Activities	
9	Innovative Assessments approach	**Yes**
10	Community Engagement	
11	Project based Learning	
11	Any Other, please mention	**Focus Individual presentation and conduct quiz in class**

Detailed Description of the initiative undertaken along with supporting evidence (Photos/ Email/ Allocation Proof, etc.)

Description:

1 Individual Student Presentations: To give confidence in public speaking, I suggest implementing individual presentations on particular subject related topic in our class. This will provide students with the opportunity to express their thoughts and ideas in a supportive environment, gradually boosting their confidence as speakers. Through constructive feedback, we can further nurture their presentation skills and ensure a positive learning experience.

Presentation by student

2. Case Study Analysis: Integrating case studies into our curriculum can significantly enhance students' subject-specific knowledge. By assigning case studies relevant to the course content, students will gain a deeper understanding of the practical implications of theoretical concepts.

Case study on related topic cloud computing

3. Interactive Quizzes: Incorporating quizzes as a regular part of our class can serve as an effective tool for reinforcing basic knowledge and encouraging student interaction. These quizzes can be designed to be engaging and fun, motivating students to actively participate. Additionally, a team-based approach to quizzes, where students generate questions for each other, can promote collaborative learning and critical thinking. This strategy encourages students to delve deeper into the material, fostering a habit of independent research and inquiry
